

Tavola Rotonda

Venerdì 5 Novembre

Evolutionary Patterns in Antarctic Terrestrial Invertebrates

16:00 Presentation of President Francesco Pennacchio

16:10 Introduction by the Coordinator A. Carapelli (Unisi)

Talks timetable:

16:20 Prof. **Peter Convey** (Individual Merit Scientist,
British Antarctic Survey, United Kingdom)

Patterns in Antarctic terrestrial diversity

16:55 Prof. **Bettine van Vuuren** (Professor of Zoology, University of
Johannesburg, South Africa)

The importance of scale in understanding biodiversity patterns

17:30 Prof. **Antonio Carapelli** (University of Siena, Italy)

**Advances in systematics and evolution of Antarctic terrestrial
arthropods**

17:35 Discussion and Conclusions

The event is accessible at the following link of Google Meet:
